Contingency plan for an in-person class pivoting to 100% online learning

Although unlikely, in the event of a COVID-19 resurgence during the course that necessitates the course delivery moving away from face-to-face interaction, affected course content will be delivered entirely online. Lectures will be delivered asynchronously (e.g., posted on OWL for students to view at their convenience). Labs will be offered synchronously via Zoom. The grading scheme will **not** change. Any remaining assessments will also be conducted online as determined by the course instructorsg0 G[The)5(gra)7(

4. Course Materials

The following course materials are a requirement for this course:

1. Textbook (5th edition). Other editions (eg, 4th) etc will not suffice. You must use the 5th edition as many revisions have been made to this new edition. You can either purchase the electronic version of the textbook (called MindTap) and/or the print copy. MindTap is optional. You don't need both electronic and print copy. But if you wish you purchase both you may do so.

All materials are available for purchase at the uwo bookstore (online or in-person). If you already purchased these resources for B1001A in Fall 2022, you will not need to repurchase them.

A Personal Response System will be used during lectures. These do not count for grades. They are for class participation only. Participation is encouraged but not mandatory.

As noted in the course outline above, you must receive a minimum grade of 60% to pass the skill development portion of the course. If you fail to do so, you will have to repeat the skill development portion of the course during the next offering of the course to pass B1001A.

Assessments worth 10% or more of the overall course grade:

For work totalling 10% or more of the final course grade, you must provide valid medical or supporting documentation to the Academic Counselling Office of your Faculty of Registration as soon as possible. For further information, please consult the U
