Academic Consideration for Student Absence

Remember students must complete 76% of the course assessments to pass. In addition students must complete the video assignment to pass as that is a learning outcome. Non-completion of 76% of the assessments under any circumstances will result in failure of the course. In addition, remember there are make ups for Test 1 and 2. If the scheduled makeup for Test 1 and 2 can not be met and you have not completed 76% of the assessments there will be an examination on the material covered in the test missed. The accommodation for these students will be an evaluation of my choosing: essay, oral, short answer, problem solving or a mixture. Students will not be allowed to write a makeup if they have already written the test or final.

Academic Consideration for Student Absences

Missed Quizzes (2% each)

Absences from the quizzes do not have to be communicated to the instructor; therefore, no academic consideration is required to be supplied when you miss a quiz. The marks of a missed quiz will be put on the final examination. However, it is the student's responsibility to make sure that they keep track of how many assessments they have missed and whether they have completed sufficient assessments to pass the course (76%).

Late submission of Video Assignment Article (4%)

The assignment is due on. People who submit the assignment on or before the deadline will receive an automatic on-time bonus of 1/2 a mark. Assignments submitted after the deadline but on or before will not receive a late penalty. Therefore, you have been granted a 3 day no penalty period. This means that you can submit this assignment up to 3 days after the deadline without penalty. As such, requests for academic consideration will be denied. A mark will be removed for each subsequent day the assignment is late. The Video Assignment Article will be screened for plagiarism using turnitin. All plagiarism will be reported to the Dean of the student's faculty.

Tests 1 and 2

Assessments worth 10% or more of the overall course grade:

For work totalling 10% or more of the final course grade two approaches are possible:
