## Research Interests

My current research interests focus on applied sedimentary geology and Earth Systems Science:

- [Barta, B., Google Earth, Fran, Austin Griffith, Sou, 2020, Geologic Field Guide Production, Upper](#)
- [Sedimentation, 16, 91](#)
- [Landry, C., Hart, B., Rodanoviç M., 2020, Comparison of Wireline Log and SEM Based Measurements of Porosity in Overburden Shales, JSTC 3141, 16p.](#)
- [Phelps A.S., Hofmann, M.H., and Hart, B.S., 2018. Facies and stratigraphic architecture of the Upper Devonian–Lower Mississippian Sappington Formation, southwestern Montana: a potential outcrop analog for the Bakken Formation. AAPG Bulletin, 102, 1793](#)
- [Bridie, M., Aplin, A.C., Hart, B.S., Orland, I.J., Valley, J.W. Bvan8 VadWa84 \(.j6t \(ip\)-1, Aanaledimenmi-](#)
