Accommodation Policies

Students with disabilities work with Accessible Education (formerly SSD) which provides recommendations for

please use your computer and/or laptop if possible (as opposed to a cell phone or tablet)
ensure that you are in a private location to protect the confidentiality of discussions in the event that a class discussion deals with sensitive or personal material
to minimize background noise, kindly mute your microphone for the entire class until you are invited to speak, unless directed otherwise

[suggested for classes larger than 30 students] In order to give us optimum bandwidth and web quality, please turn off your video camera for the entire class unless you are invited to speak

[suggested for cases where video is used] please be prepared to turn your video camera off at the instructor's request if the internet connection becomes unstable
unless invited by your instructor, do **not** share your screen in the meeting

The course instructor will act as moderator for the class and will deal with any questions from participants. To participate please consider the following:

if you wish to speak, use the "raise hand" function and wait for the instructor to acknowledge you before beginning your comment or question

remember to unmute your microphone and turn on your video camera before speaking

self-identify when speaking.

remember to mute your mic and turn off your video camera after speaking (unless directed otherwise)

General considerations of "netiquette":

Keep in mind the different cultural and linguistic backgrounds of the students in the course. Be courteous toward the instructor, your colleagues, and authors whose work you are discussing.

Be respectful of the diversity of viewpoints that you will encounter in the class and in your readings. The exchange of diverse ideas and opinions is part of the scholarly environment. "Flaming" is never appropriate.

Be professional and scholarly in all online postings. Cite the ideas of others appropriately.

Note that disruptive behaviour of any type during online classes, including inappropriate use of the chat function, is unacceptable. Students found guilty of Zoom-bombing a class or of other serious online offenses may be subject to disciplinary measures under the Code of Student Conduct.

11. Student Code of Conduct

The purpose of the Code of Student Conduct is to define the general standard of conduct expected of students registered at Western University, provide examples of behaviour that constitutes a breach of this standard of conduct, provide examples of sanctions that may be imposed and set out the disciplinary procedures that the University will follow. For more information, visit
