Examinations

In this course there will be <u>one in-class mid term exam</u> and <u>a final exam during the</u> <u>exam period in April</u>. Questions will consist of computer-marked multiple-choice tests and/or short answer written responses. These exams are designed to assess your knowledge of all materials and concepts identified and discussed in class including lectures, films and any guest lecturers and assigned readings.

Computer-marked multiple-choice tests and/or exams may be subject to submission for similarity review by software that will check for unusual coincidences in answer patterns that may indicate cheating.

Mid-term Test (35%)

The mid-term test will be held <u>during the class session</u> at 6:00 p.m. See the schedule on pages 7-9 for the specific date. Questions will consist of computer-marked multiple-choice tests and/or short answer written responses

PROFESSIONAL BEHAVIOUR:

Students are expected to attend all classes, arrive on time for class, <u>read</u> <u>assigned readings prior to class</u>, participate in class discussion, make a genuine contribution to any group activities and respect the opinions of others in the learning process.

Students and instructors are expected to maintain a professional relationship characterized by courtesy and mutual respect and to refrain from actions disruptive to such a relationship. This professional and courteous behaviour must also be extended to guest lecturers. Moreover, it is the responsibility of the instructor to maintain an appropriate academic atmosphere in the classroom, and the responsibility of the student to co-operate in that endeavour. Further, the instructor is the best person to decide, in the first instance, whether such an atmosphere is present in the class.

Use of Electronic Devices:

Electronic devices will not be allowed during tests and examinations.

Cell phones are to be turned off during scheduled class time.

SUPPORT SERVICES FOR STUDENTS:

Students may find the web sites below to be helpful throughout the academic year:
