COURSE DESCRIPTION:

COURSE EVALUATION:

Midterm Test 35%

Final Exam 35%

Group Assignment 30%

NOTE: your final grade will come from the registrar, not the course instructors.

Examinations

In this course there will be one in-class midterm exam and a final exam during the exam period in April. Questions will consist of computer-marked multiple-choice tests and/or short answer written responses. These exams are designed to assess your knowledge of all materials and concepts identified and discussed in class including lectures, films and any guest lecturers and assigned readings.

Computer-marked multiple-choice tests and/or exams may be subject to submission for similarity review by software that will check for unusual coincidences in answer patterns that may indicate cheating.

Midterm Test	The midterm test will be held in <u>HSB 35</u> during the class session at 6:00 p.m. See the schedule for the specific date. Questions will consist of computer-marked multiple-choice tests and/or short answer written responses and may include case scenarios or vignettes. The midterm exam will cover all material from lectures and assigned readings for the period prior to the exam.	35%
Group Assignment	You will be asked to form into groups after the add/drop period in January. Then you will be provided with detailed information about the assignment. The assignment requires each group to select a case scenario from the list provided, and work throughout the semester to: a) investigate the case scenario and
