Also, in preparing your practicum paper, you are expected to develop an appropriate set of background readings that will extend the resources provided by the practicum supervisor.

4.0 COURSE OBJECTIVES

In this course, you will create and participate in a practicum in the areas of aging and independence, bioethics, health promotion in rural and urban areas, or other areas as appropriate. Practica are developed together with the student, an on-site coordinator who provides direct supervision, and the course instructor. As described in this course outline, your grade in this course is based on multiple components: creation of a learning contract, development of a practicum poster, supervisor evaluation of your performance in the practicum, and a practicum paper.

Practicum hours are coordinated by the practicum supervisor, as required by the organization. On average, 6 to 8 hours per week are expected, although this may vary substantially from week to week.
