Technical Requirements and Electronic Devices

This course requires you to have a reliable internet connection and a computer to connect to OWL and write assignments. However, no electronic device will be permitted on tests in class.

In this course, students are permitted to use AI tools exclusively for information gathering and preliminary research purposes. Students must however critically evaluate the obtained information, exercise independent thinking and engage in original research to synthesize and develop their own ideas, arguments, and perspectives. The use of AI tools can serve as a starting point for exploration, however students are expected to uphold academic integrity by appropriately attributing all sources and avoiding plagiarism. Assignments should reflect the
