friendly.

A vaccination clinic is being planned for the fall (October/November) and hosted at Thames Hall for a immunization against potential respiratory viruses.

The committee discussed proposed revisions to policies on Health and Safety and Violence Prevention

Committee discussion provided suggestions to improve definitions and policy wording to meet with collective agreements and for clarity. For example, making clear when students are considered workers and subject to the policy and procedures. Another suggestion was to make clear operationally when a person who is supervising the work of others (e.g. co-op students) that they realize their role and responsibilities as a "supervisor" under the act

groups.
