**Students enrolled in this class should understand the level of autonomy and self-discipline required to be successful**

- 1. Invest in a planner or application to keep track of your courses. Populate all your deadlines at the start of the term and schedule time at the start of each week to get organized and manage your time.**
- 2. Make it a daily habit to log onto OWL to ensure you have seen everything posted to help you succeed in this class.**
- 3. Follow weekly checklists created on OWL or create your own to help you stay on track.**
- 4. Take notes as you go through the lesson material. Treat this course as you would a face-to-face course. Keeping handwritten notes or even notes on a regular Word document will help you learn more effectively than just reading or watching the videos.**
- 5. Connect with others. Try forming an online study group and try meeting on a weekly basis for study and peer support.**
- 6. Do not be afraid to ask questions. If you are struggling with a topic, contact your instructor.**
- 7. Reward yourself for successes. It seems easier to motivate ourselves knowing that there is something waiting for us at the end of the task.**
