Analyze linguistic data to create generalizations and identify gaps

Present data in a way that is easily understood by others

Identify best practices for documenting and archiving linguistic data

Course Materials:

Registered students will be able to access information about course readings through the course's on-line OWL site before the first day of class.

Evaluation:

Fieldnotes 15% (4 out of 5)

Every two weeks beginning on Oct 15 students must turn in scanned copies of their fieldnotes. These will be evaluated in terms of completeness and comprehensiveness. Top 4 of 5 scores will be added. Last fieldnotes will be due Monday Dec 5. More details will be provided on OWL.

Homework Assignments 45% (5 out of 8)

Every week starting in week 4, there will be an assignment posted related to that k YY_ƉjˈYˋ]W]hUh]cbgˈ·Ghi XYbhgˈa i ghˈWca plete 5 out 8 assignments each one worth 10%. If more than 5 are completed, the top 5 will be used to calculate the final grade. At least 2 must be completed by Nov 27. More details will be provided on OWL.

Elicitation 20%

Individually students will plan and execute an elicitation on a topic of their choice. They will then transcribe the session and present a summary of findings and future questions. Studengnments

Institutional Statements and Policies

All students should familiarize themselves with Western's current academic policies regarding accessibility, plagiarism and scholastic offences, and medical accommodation. [These policies are outlined with links to the full policies on the Anthropology website](#).
