Course H15an/actuari al /sci ence

_____ perspective have to offer in answering this question?

- Actuaries use math and statistics to create theoretical models of the world around them
- They apply these concrete skills to real life situations and to problems like analyzing future financial events; they create and price insurance products and help design and give advice on government social security programs and company employee benefit plans
- In AS1021 you’ll learn about many social insurance programs & private insurance plans that require actuaries in their creation; such as retirement savings plans, employer pension plans, government social security programs, long-term care insurance, health

Your course grade will be determined as follows:

Written Report	10%
Test 1	20%
Test 2	20%
Final Exam	50%
