Procedures for the Interdisciplinary Combined PhD Option

Subsection	Comments & considerations
Comprehensive examination(s) / Candidacy Examination milestones:	<ul style="list-style-type: none"> x Ideally, the student should not be required to complete the comprehensive exam requirements of both programs separately. x Rather, efforts should be made to combine or blend the requirements in a manner that supports the learning expectations of each program while avoiding separate comprehensive examinations.
Additional program requirements:	<ul style="list-style-type: none"> x Describe how any of the additional requirements from either program may be combined or waived for the <u>Interdisciplinary Combined PhD Program</u>. x In combining or waiving any additional requirements, information should be provided to explain how the learning expectations of the two programs will still be met. x Mandatory lab or safety training cannot be waived.
Thesis requirements:	<ul style="list-style-type: none"> x All thesis submission and examination related forms must be completed and submitted to SGPS by the Home

Procedures for the Interdisciplinary Combined PhD Option

Subsection	Comments & considerations
	<p>Program has ultimate responsibility for the student's funding.</p> <ul style="list-style-type: none">x If one program has a higher funding level, the student should receive the higher level, shared appropriately by Home and Partner Programs.
