## **B. PRINCIPLES**

The University of Western Ontario subscribes to the following principles of sustainability:

- 1. EngagementEnvironment and sustainability is the responsibility of everyone at Western. Success requires the collective action of the Unsing community through longerm planning, shared learning, grassroots activities, and institutional leadership.
- 2. Institutional EcologyThe University commits to developing institutional practices that promote sustainability while reducing the use redisources and the production of waste and hazardous materials.
- 3. Efficacy The University will continue to provide quality education and services while progressively reducing negative environmental, health and economic impacts.
- 4. Accountability The University will establish measurable sustainability goals and monitor, evaluate and report on performance.
- 5. Innovation: The University will encourage a climate of creativity, inquiry, research and collaboration that fosters new ideas and approaches to sustainability questions and challenges.
- 6. Community The University recognizes that it is part of a larger community and will engage with that community to promote sustainable practices and to identify and address opportunities and challenges that may have impact beyond our campus boundaries.

## C. GOALS & OBJECTIVES

The principles identified in this policy will encourage:

- Incorporating sustainability into our academic programming, to contribute to an educated citizenry and develop future leaders
- Engaging in research across the disciplines into issues of environmental sustainability
- Reducing our use of inputs
- Reducing outputs through recycling and reuse
- Focusing on life cycle management of resources and waste products
- Utilizing ecological landscaping methods and preserving green space
- •
